

Postdoctoral Associate - Faculty of Health Sciences, University of Western Ontario, Canada

About Western Western ranks as one of Canada's top research-intensive universities. From fundamental to applied discovery and other scholarly activities, its scholars advance knowledge that provides tangible benefits for the economic, social, health and cultural development of citizens in London, in Canada and around the world. Western Research supports scholars through collaboration, communication, and service. Western University and its affiliate colleges received more than \$267 million in research funding over the past year.

About the Role Two postdoctoral positions are available with Dr. Siobhan Schabrun to work on either a New Frontiers in Research Funded project exploring multiomics in low back pain or a BrainSCAN funded project exploring motor adaptation in the transition from acute to chronic pain. The positions are available immediately, and recruitment will continue until they are filled. The positions are for 2 years, with a possibility for extension. Applicants must have a Ph.D. in a relevant field (e.g. Physical Therapy, Neuroscience, Psychology, Biomedical Science). Prior experience in multiomics, brain imaging techniques (fMRI, EEG, TMS), motor adaptation, programming skills and/or human pain research would be advantageous but is not necessary.

The successful candidate will have strong oral and written communication, interpersonal, and organizational skills. Beyond the primary project, the candidate will be involved in multiple research activities related to understanding, treating and preventing chronic pain. Working with a project team, the candidate will be involved in all aspects of research including project management, liaising with collaborators and community partners, supervising and mentoring research assistants, data collection and analysis, and manuscript preparation. This position is full-time on-site at Parkwood Institute, London, ON. The salary will be commensurate with experience. More information about benefits for postdoctoral associates at Western University is available at: https://www.uwo.ca/hr/benefits/your_benefits/pda/index.html.

Interested individuals should e-mail a statement of interest to Dr. Schabrun. Please also include:

- Your current C.V.
- A statement of academic interests and career goals
- A sample of scholarly writing
- The names of two referees who are familiar with your academic work and can be contacted.

Dr. Siobhan Schabrun, Email: sschabru@uwo.ca

Western Values Diversity The University invites applications from all qualified individuals. Western is committed to employment equity and diversity in the workplace and welcomes applications from women, members of racialized groups/visible minorities, Indigenous persons, persons with disabilities, persons of any sexual orientation, and persons of any gender identity or gender expression. Accommodations are available for applicants with disabilities throughout the recruitment process.
